

# Turn your Android phone into a remote control!

1. Have the Android Remote Assembly installed in your Phenom, Phenom 2, Elite Grand IV, Elite Grand V, or Elite Grand V LE machine.
2. Go to Google play™ store and type “lobster remote” into the search bar and click search.
4. Click on the Lobster Remote Control icon.
5. Click on the blue, free ‘Download’ button. Hit the ‘Accept & Download’ button and then ‘Open’. The Lobster Remote application will open on your phone.
6. Press ‘Settings’ on your Android phone.
7. Press ‘Connect a Device’ in the pop up screen at the bottom of the display.
8. For first time use:
  1. Press ‘Scan for Devices’ in the new popup window.
  2. A device, RN42-xxxx, should be found under ‘Other Available Devices’, where xxxx will be a unique ID for your installed Bluetooth module.
  3. Select device & type in “1234” when asked for password.
  4. Your Android phone should pair with the device.
9. Your app is ready for use.
