

## QUICK START-UP GUIDE ELO4 CALIBRATION

If you have questions about your machine, DON'T contact your dealer; please call Lobster Sports directly at 800.210.5992

1. Place the machine and its white plastic line marker directly above the baseline and make sure the machine is centered over the center mark of the baseline.
2. Press power button  and wait for automatic calibration to complete.
3. Press the test button . Machine will launch one ball over the net towards the "T" where the center and service line meet.
4. The ball should land within a 2 foot radius of the "T."  
If the test ball lands too near or far from the "T," use the  /  buttons to adjust the distance, retest. If the ball lands slightly right or left, nudge the front of the machine to the right or left and retest.
5. Once the test ball lands in the correct spot, press  or one of the training modes and press .
